New Product Announcement: MatriVideo 2-Port Virtual Network CCTV. (Model Number: HR-NC3802)

Instek Digital proudly announces the addition of the 2-Port Virtual Network CCTV (Model Number: HR-NC3802) to the MatriVideo line of products.

This brand new Virtual Network CCTV release will support 2 video outputs in addition to increase performance and enhanced capabilities. The model specifications have been upgraded from a display limitation of 9 video streams in 4CIF Resolution at 30FPS/2Mbit (supported by HR-NC3403) to 18 video streams in 4CIF Resolution at 30FPS/2Mbit (supported by HR-NC3802). This performance enhancement is extremely critical in supporting the high bandwidth requirements of megapixel cameras and higher resolution displays.

The 2-Port Virtual CCTV: HR-NC3802 will be available for purchase on January 1st, 2009.

Please refer to product datasheet for additional information.
