MatriVideo V5.0.3 Release:

Argus View: Quick Video Snapshots Additional IP Cameras Integrated

Instek Digital is proud to announce the immediate availability and release of the software V5.0.3 for its MatriVideo platform. This version introduces several key features:

1) Argus View- Quick video snapshots of recorded video during a specified duration. For any specific hDVR channel, the application can display 12 video thumbnails within a time range selected by user to facilitate swift preview of the video images. User can “zoom in” or “zoom out” of the video content and the previewed thumbnails will be cached to speed up the download time of the thumbnails. Argus View significantly helps users by reducing the search time linked with large amounts of video footage.

2) Additional IP Cameras Integrated into the MatriVideo Open System Platform: Pioneering in full support for H.264 megapixel IP cameras, V5.0.3 presents the ultimate solution for best image quality at low bandwidth requirements.

Instek Digital expands the IP camera integration and megapixel solution:

- [Hunt MPEG4+RTSP VGA/ megapixel IP cameras](#)
- [Arecont Vision Panoramic M-JPEG megapixel IP Cameras](#)
- [Arecont Vision Panoramic H.264 megapixel IP Cameras](#)
- [Sanyo H.264+RTSP D1/ Megapixel IP Cameras](#)
- [Panasonic MPEG4+RTSP IP Cameras](#)
- [ACTi 66xx PTZ IP Cameras](#)

Please refer to the MatriVideo V5.0.3 Release Notes for additional information.

Special Announcement

Network and Storage Capability Enhancement: Instek Digital Substitutes the 2U Models

Instek Digital proudly announces a new substitute series for the 2U DVR/ NVR/ Archive Server product line. The new series will reinforce overall network capability and data transmission speeds for faster and stable data access. Moreover, the internal storage capacity has also increased from 3TB (1TB x 3 bays) to 8TB (2TB x 4 bays). These enhancements once again prove Instek Digital's commitment in providing leading edge Network/IP solutions. The model substitutions will be as follows:

Original Models	Substituted Models
HR-DR33XX-2U	HR-DR37XX-2U
HR-DR34XX-2U	HR-DR38XX-2U
HR-NR33XX-2U	HR-NR37XX-2U
HR-NR34XX-2U	HR-NR38XX-2U
HR-AS34XX-2U	HR-AS38XX-2U
