MatriVideo V5.0.1 Release:

Enhanced User Account Management Full Support for H.264 IP Cameras

Instek Digital is proud to announce the immediate availability and release of the software V5.0.1 for its MatriVideo platform. This version introduces several key features:

- 1) Advanced management capability for your enterprise network capable CMS.
- 2) Enhanced account management restrictions and functions; especially reinforced in this version of the software. User authorization access rights can be assigned into groups or individuals for ease of administration. The availability of additional configuration options effectively enhances the levels of security.
- 3) In addition, support for new cameras, including the Arecont and Axis megapixel cameras have been added into this enormously open platform system. Pioneering in full support for H.264 megapixel IP cameras, V5.0.1 presents the ultimate solution for best image quality at low bandwidth requirements.

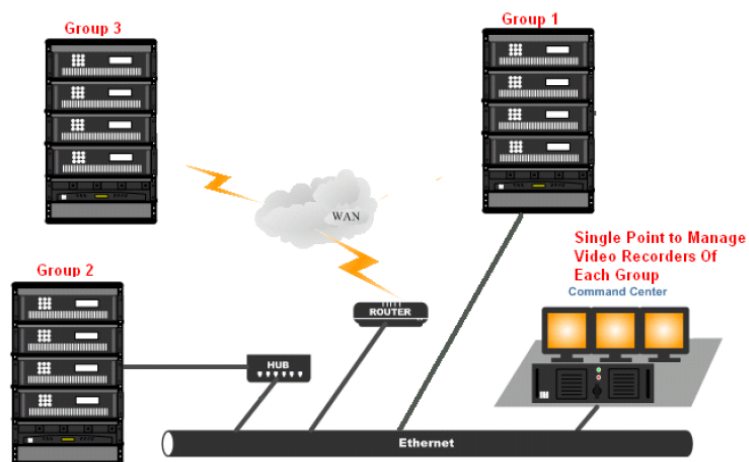

Instek Digital expands the IP camera integration and megapixel solution:

- [Arecont Vision H.264 megapixel IP cameras](#)
- [Axis H.264+RTSP IP Cameras](#)
- [Axis MPEG-4+RTSP megapixel IP Cameras](#)
- [Instek Digital MC-AX MPEG-4 IP Camera](#)

Capacity Management – Allows users to allocate maximum and minimum number of recording days per camera.

Group User Account Management – Provides the option to create video recorder groups, manage user accounts, and set up permissions for accessing video recorders, cameras, PTZ Control and IO devices within multiple video recorders simultaneously.

Individual User Account Management – Provides the option for management of user accounts, camera permissions, PTZ Control and IO devices management, within a single video recorder

Please refer to the MatriVideo V5.0.1 Release Notes for additional information.

"MatriPak" Launched: A Compact 4 or 9ch. Package with NVR + FREE Software + IP cameras

"MatriPak" is now available with the MatriVideo 2C NVR, the Command Center One Software and the CMOS Progressive IP Cameras

HR-NR3804-2C / HR-NR3809-2C

Instek Digital, the leader of NVR and Hybrid DVR solutions is proud to announce a cost-effective Network Video Recording (NVR) solution, deemed "MatriPak". This package includes a choice of the MatriVideo NVR model: HR-NR3804-2C or HR-NR3809-2C, plus a FREE copy of the MatriVideo Command Center One (CCOne) Video Management Software. This compact NVR system is perfect for multi-site market segments.

Command Center One Software

Bundled with the MatriVideo 2C NVR, Command Center One is designed for single NVR management. Through its user-friendly graphical user interface, even the non-technical users can operate the application software with comfort and ease.

CMOS Progressive IP Cameras

MatriPak includes 4 or 9 1/4" CMOS progressive scan IP cameras, with an option of cube or the all-in-one model. Features include MPEG-4 compression, auto-picture modification, two-way audio and low bit rate. These cameras generate superior performance with the capability of auto-discovery

Special Announcement

Network Capability Enhancement: Instek Digital Substitutes the 3U Models

Instek Digital proudly announces a new substitute series for the 3U DVR/ NVR/ Archive Server product line. The new series will reinforce overall network capability and data transmission speeds, with the adoption of Broadcom PCIe Ethernet chips and two on-board network ports. Moreover, the storage interface has also been upgraded from PCI to PCIe for faster and stable data access. These enhancements once again prove Instek Digital's commitment in providing leading edge Network/IP solutions. The model substitutions will be as follows:

Original Models	Substituted Models
HR-DR33XX-3U	HR-DR37XX-3U
HR-DR34XX-3U	HR-DR38XX-3U

HR-NR33XX-3U	HR-DR37XX-3U
HR-NR34XX-3U	HR-DR38XX-3U
HR-AS34XX-3U	HR-AS38XX-3U
