

Casino Regina and Moose Jaw video surveillance from Instek Digital

Casino Regina and Moose Jaw are owned and operated by the Saskatchewan Gaming Corporation and regulated by the Saskatchewan Liquor and Gaming Authority (SLGA), which is a division of the Government of Saskatchewan. Casino Moose Jaw is the sister casino of Casino Regina, located about 40 miles apart. Casino Regina gets 2 million visitors a year, with over 750 slot machines and 35 table games.

As the two casinos need to be monitored from the same location, it's important that the system is easily scalable over large distances. Any video security solution implemented at a casino in Canada also has to comply with the strict regulations set by the Gaming Control Board. Instek Digital easily met these requirements and provided a solution capable of over 8 days of video storage at 30 frames per second.
